

PURE CREATION MENTORING PROGRAMS - 2021

with Rachel Blackman

Year long mentoring programs to support you to make what you want from a sense of purpose and creative agency.

The Jedi Program tracks potent points in the solar year and is about listening to the intrinsic laws of how creation happens in nature, to help us grow what we want from a

place of enjoyment and sustainability.

You will learn self mentoring tools, how to work with unconscious & imaginative resources and how to be your own wise council.

You will learn to refine your somatic sensitivity, lean into the resources of

the group and become more intuitive with the wise council of the planet in your quest to do what you want to do in the world. We meet monthly as a group and once a month one on one.

The Solo Program doesn't have the shamanic element, the planetary mapping or the

group meet ups. We meet one on one, once a month for 12 months.

Both aim to support you to identify your unique offer and bring it to the world from a place of integration and self sovereignty.

Dates, pricing and application info below.

PEOPLE SAY:

The work Rachel facilitates is fun, rich and has made a big difference to my professional and personal life. I'm more comfortable taking risks, being seen and heard, and I'm more creatively productive than I have been in some time.

- Karen Van Maanen
story weaver, yogini, meditation teacher, embodiment trainer.

'Working with Rachel has helped me develop a meaningful relationship with my intuition, opened up creative possibilities and connected me to my purpose. I've really valued the organic structure of following the seasonal cycle to inform the inner and outer work we are doing.'

- Rachel Sparks

'This work is rich, full of soul, deep and beautifully generative. (Rachel) helps you descend into your own nourishment and creativity, then supports you to give rise to that which wishes to be born specifically through you.'
